

ABSTRAK

Penelitian ini bertujuan untuk mengetahui pengaruh *Feer of Failure* terhadap *Anxiety Academic* pada siswa SMAIT *Boarding School*. Jumlah responden yang terkumpul pada penelitian ini sebanyak 231 orang siswa teknik purposive sampling. Alat ukur yang digunakan pada penelitian ini adalah Performance Failure Appraisal Inventory (PFAI) (33 item valid; $\alpha = 0,901$) dan *Anxiety Academic* (51 item valid; $\alpha = 0,927$). Analisis penelitian ini menggunakan analisis regresi linear sederhana dengan hasil analisis yang menunjukkan terdapat pengaruh positif *Fear of Failure* terhadap *Anxiety Academic* ($r^2 = 0,803$; signifikansi 0,000). Maka dari hasil uji hipotesis menunjukkan bahwa semakin tinggi *Fear of Failure* maka akan semakin tinggi juga *Anxiety Academic* pada siswa SMAIT *Boarding School*.

Kata Kunci : *Fear of Failure* , *Anxiety Academic*, SMA

ABSTRACT

This study aims to determine the effect of Fear of Failure on Academic Anxiety in SMAIT Boarding School students. The number of respondents collected in this study was 231 students of purposive sampling techniques. The measuring tools used in this study were Performance Failure Appraisal Inventory (PFAI) (33 valid items; $\alpha = 0.901$) and Anxiety Academic (51 valid items; $\alpha = 0.927$). The analysis of this study uses a simple linear regression analysis with the results of the analysis showing that there is a positive influence of Fear of Failure on Academic Anxiety ($r^2 = 0.803$; significance 0.000). So the results of the hypothesis test show that the higher the Fear of Failure, the higher the Academic Anxiety in SMAIT Boarding School students.

Keywords: *Fear of Failure, Anxiety Academic, SMA*
