*This study aims to determine the effect of Tax Planning, Deferred Tax Expense, and Deferred Tax Assets on Earnings Management in Food and Beverage Sub-Sector Manufacturing Companies Listed on the Indonesia Stock Exchange for the 2017-2021 Period. The population of this study is the food and beverage sub-sector companies listed on the Indonesia Stock Exchange for the 2017-2021 period, totaling 26 companies. Based on the purposive sampling data collection technique, a sample of 10 companies was obtained. The data collection technique uses financial reports published on the official website of the Indonesia Stock Exchange. The data testing technique is done by classical assumption test, panel data regression, coefficient of determination, selection of model test and hypothesis testing. Data processing in this study uses eviews 9. Based on this research, the results of tax planning and deferred tax expense do not partially affect earnings management. However, deferred tax assets have a partial effect on earnings management. Tax planning, deferred tax expense, and deferred tax assets simultaneously affect earnings management.*
